

ZEF Energy

DIY Branding Wrap Template
ZEF Energy | ABB Terra Series
V 1.0_2021

BACK PANEL TEMPLATE

MANDATORY REQUIREMENTS:

1. All vector graphics -- No BITMAPS
2. 1/2" bleed beyond cutlines on all sides, except 1" bleed on top and bottom edges
3. Spot Red used for bleed lines (0.5" thickness)
4. Spot Magenta (100% M) used for "CUTCONTOUR" line
5. CMYK color for all embedded art and the final file
6. All fonts should be vectorized ("create outline")
7. Final design file to be provided as an Illustrator (AI), PDF or ESP file.
8. Any fonts that are not outlined or any linked images that are not embedded need to be packaged or sent with the final artwork files provided.

Application: This equipment wrap will be installed in the field with all internal cutlines cut in the field to allow for the best fit.
